'I have spoken to a company that specialises in the repair, removal and installation of BT Telephone Kiosks, who have said to straighten and prepare the ground works under the kiosk- it will be around the £700 region because of the equipment required to lift the box.

My opinion is that if you can afford his then fantastic, but if not then I can't see a t as it is. I very much doubt that it will fall over.

I hope this helps? If you are able to give me a go ahead to adopt the kiosk and complete the refurbishment I will have the works completed ASAP.'
